THE CHESAPEAKE AND POTOMAC TELEPHONE COMPANY OF VIRGINIA

HOW TO MAKE LONG DISTANCE CALLS

To call long distance points, dial "Operator" and give her the details of your call except as follows:

Virginia Beach INDIVIDUAL and TWO-PARTY customers may dial their own station-to-station long distance calls to NORFOLK, SOUTH NORFOLK and PORTSMOUTH customers by dialing the TWO letters and FIVE

numerals of the number. The regular long distance charges apply.

Other long distance calls including person-to-person, credit card, collect calls and all calls from coin, four-party and rural telephones require the services of an operator, who can be reached by dialing "Operator."

To Call Station-To-Station

When you will talk with anyone who answers the called telephone or private switchboard, give the operator the desired telephone number (Virginia Beach Individual and Two-Party customers follow instructions under "How To Make Long

Distance Calls.")

If you do not know the number, give her the name and address. The charge for a station-to-station call begins when someone answers the called telephone or private switchboard.

To Call Person-To-Person

When you want to talk to a particular person or reach a particular telephone or department served through a private switchboard, tell the operator the person or department you want and the telephone and extension numbers if you know them. The charge is more than a station-to-

station call and begins when you reach the person, extension or department you want. If the particular person called is not available and you talk with someone else the person-to-person charge will apply.

To Call Collect

Upon request, charges on most calls to points in the United States, Alaska, Canada, Cuba, Hawaii and Puerto Rico, may be collected at the called telephone. Tell the operator you want

the call made collect. On collect station-to-station calls within Virginia an additional charge of 15 cents applies.

TYPICAL RATES FROM VIRGINIA BEACH TO OUT-OF-TOWN POINTS

The Federal Excise Tax on long distance calls is 10% of the total charge. On calls made from coin telephones this tax is collected to the nearest five cents.

FIRE _____ POLICE _____

You may secure assistance on emergency calls by dialing "Operator"

WARNING: Virginia State law provides that any person shall be guilty of a misdemeanor "who fails to relinquish a telephone party line after he has been requested to do so to permit another to place an emergency call" or "who requests another to relinquish a telephone party line on the pretext that he must place an emergency call, knowing such pretext to be false." The law defines an "emergency call" as "a call to report a fire or summon police, or for medical aid or ambulance service, in a situation where human life or property are in jeopardy and the prompt summoning of aid is essential."

BUSINESS OFFICE

For all business transactions with the Company please call
your Business Office

L. F. PATRICK, Manager

203 31st Street

Virginia Beach, Va.

Telephone GArden 8-9911

GENERAL INFORMATION

Identification of Employees

Employees who are authorized to examine, exchange or remove any of this Company's apparatus carry an identification

card signed by an official of the Company which they will be glad to exhibit upon request.

Directory Accuracy

Every effort is made to make the directory as accurate as possible. The Company, however, assumes no liability for damages arising from errors or omissions in making up or printing of this directory.

Please report to your Business Office promptly, any incorrect listings so that our records may be adjusted for the next issue and your service be protected in the meantime.

Voice Recording Equipment

A short, high "beep" tone heard on the telephone line about every fifteen seconds means that the person with whom you are talking is recording your conversation by means of his electrical recording machine connected to the telephone line. Use of a

recorder without this signal is not permitted.

If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine.

TELEPHONE BILLS

Telephone bills are due upon presentation. When payment is made in person, the bill should always be presented. When remittance is made by mail, please address it to the Business Office, accompanied by the bill stub. If the bill has been mislaid, kindly enter your telephone number on the check to identify the payment.

BILLING DATE

Telephone bills are dated as follows and are mailed a few days later:

GA 8-0000 to GA 8-4999.....	5th
GA 8-5000 to GA 8-9999.....	19th

The Chesapeake and Potomac Telephone Company of Virginia

General Offices: 703 East Grace Street, Richmond 19, Va.

Telephone MILton 8-9121

HOW TO USE THE DIAL TELEPHONE

BE SURE OF NUMBER

Please do not call from memory unless you are sure that the number is correct. If in doubt, obtain the number from the directory. Write it

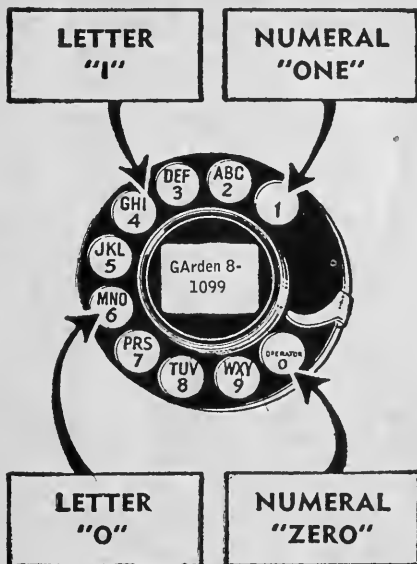

down and refer to it while dialing. If the desired listing is not in the directory, dial "113" (Information).

HOW TO DIAL

Remove the receiver and **LISTEN FOR THE DIAL TONE**—A steady humming sound. The equipment will not function until you hear this sound.

For example, to call GArden 8-1099: Place your finger in the opening at the letter G and pull the dial around until your finger strikes the stop. Remove your finger and let the dial return freely. Do not touch the dial as it returns. Then dial the letter A and the digits 8-1-0-9-9 in the same manner. It is important that dialing be continuous, with the shortest possible interval between digits.

If you make an error in

dialing, hang up for a few seconds and dial the complete number again. A bur-rr-ing sound indicates that the called telephone is ringing. A buzz-buzz sound indicates that the called line is busy, in which case, replace the receiver and dial later.

If you should reach a wrong number, the telephone reached may be in another city. You should therefore ask the person answering for his telephone number and the city in which he lives. If it is an out-of-town point, hang up, then dial "Operator" and report it to avoid being billed for a long distance call.

EMERGENCY CALLS

In an emergency, or if you need help in getting a number, dial "Operator." On such calls you can get the operator back again by moving the hook up and down slowly.

OUT-OF-TOWN CALLS

Instructions on how to make out-of-town calls are shown on Inside Front Cover under "How To Make Long Distance Calls."

SPECIAL INSTRUCTIONS FOR PARTY-LINE CUSTOMERS

FROM TWO-PARTY TELEPHONES—If after dialing a listed number you receive the busy signal and immediately after you hang up your bell rings, it indicates that you are calling another party on your line and that his telephone is also ringing. When the called party answers, your bell will stop ringing. Remove your receiver promptly and start the conversation. If the called party does not answer, remove your receiver for a few seconds to stop your bell from ringing.

FROM ALL OTHER PARTY-LINE TELEPHONES—If after dialing a listed number, you receive a steady high pitched tone, it indicates that you are calling another party on your line. In this case you should immediately dial the one digit party-line code as shown on your station number plate. After dialing this code, a busy signal will be heard. Replace your receiver on the hook. Your bell and that of the called party will ring. When the called party answers, your bell will stop ringing. Remove your receiver promptly and start the conversation. If the called party does not answer, remove your receiver for a few seconds to stop your bell from ringing.

If your telephone rings and you find no one on the line, it may be a call from another party on your line. Wait a few seconds to give the calling party time to realize you have answered.

How to protect your toes at night

Save steps and calls with a bedroom extension telephone

Traipsing around a dark house to answer a late telephone call is hard on the toes, shins and disposition. And it's so unnecessary—now that you can have an extension telephone right beside your bed.

It comes in mighty handy, too, when someone is ill, or there is an emergency late at night. And when someone is trying to get you with an important message, all you have to do is reach out and pick up the telephone.

For just a few cents a day, you can enjoy the convenience of a bedroom extension telephone. Just call our Business Office now!

IT ONLY *SEEMS* LIKE MAGIC

MORE THAN a million telephone messages whisk along the wires of this company daily—as if by magic. But magic has nothing to do with it. Behind your fast and efficient telephone service are:

PEOPLE—thousands of employees, each doing his or her part to give you the best possible telephone service at the lowest possible cost.

EQUIPMENT—the manufacturing skill of the Western Electric Company which provides this company, as a member of the Bell System, with the finest telephone equipment made.

SCIENTIFIC RESEARCH—the results of years of continuous research by the Bell Telephone Laboratories which are reflected in every call you make.

Each is important, all are necessary in the furnishing of good telephone service.

Brothers Auto Service 23d & Atlantic Av—GA 8-1306

A vital factor in the highly specialized work of providing dependable, low cost telephone service is that telephone supervisors—foremen, wire chiefs, chief operators, managers—start at the bottom. Every part of your service is managed by men and women whose judgment and decisions are based on experience with the job.

TALK NATURALLY

Normal tone of voice is best over the telephone. Whispered words are indistinct. Shouting distorts the voice and may make it gruff and unpleasant.

COURTESY

We want your telephone service to be quick and good and cheap. But there is more to it than that. We want it to be courteous, too. No matter what the occasion, there's always time for a cheery "please" and a pleasant word of thanks. That is the Bell System way. It is one of the fine traditions of the telephone business.

**CONSULT THE
CLASSIFIED
DIRECTORY**

Need a mailing service? The easiest way to solve a "sticky" problem is to look in the Classified Section of the Telephone Directory. Whatever or whomever you need—antiques, buttons, carpenters, or dentist, they're all conveniently listed with name, address, telephone number. Make it a habit to look in the Yellow Pages.

A shopping service for your convenience. When you read an advertisement do you know where to buy the goods? Look in the Yellow "Where to Buy It" Pages of this telephone book, under the trade mark name of the article. Many nationally advertised products are listed here, together with a list of the local stores. Find where to buy it in your Classified Telephone Directory.

Your good telephone service depends to a large degree upon the teamwork of telephone men and women all along the line. Linemen, installers, operators, engineers, service representatives—all work with one purpose in mind—to give you the finest telephone service in the world at the lowest cost consistent with financial safety.

YOU LIVE BETTER— EASIER—SAFER

with an extension telephone always at hand in the living room, bedroom, den, recreation room, kitchen or any place where a telephone call might be made or received.

We in the telephone business never for-
 get that behind every telephone number
 there are people—people who depend on us
 for swift, accurate, dependable telephone
 service. It is our aim to keep this service
 as courteous, as helpful and as friendly as
 we can make it.

FOR MORE CONVENIENCE—
FOR MORE PRIVACY ON YOUR
CALLS—

get a handy extension tele-
 phone for every room in your
 home. You'll wonder how you
 ever did without one always
 near.

Customers don't need telescopes. Your ad-
 vertising in the Yellow Pages of this
 directory enables buyers to find you in a
 hurry. That's where they look when they
 need repair work or merchandise. Then
 they telephone their orders. It pays to ad-
 vertise in the Yellow Pages.

THE VOICE WITH A SMILE

Every day many pleasant voices go over the telephone—many, many thousands of them. It seems the number is growing all the time. The reason for this is that most people realize the social and business value of "The Voice With A Smile."

The "Spirit of Service" is a tradition in the telephone business—a powerful force throughout the entire organization. It helps all employees realize how much telephone service means to everyone—how important it is to get every message through quickly. It inspires telephone workers in all kinds of jobs to devote themselves to making service satisfactory and pleasing to you in every way.

Enjoy a Thrilling Family Reunion by Long Distance

The next best thing to attending a family reunion in person is a get-together by low-cost long distance. You can be connected with different members of your family at different places on the same long distance call. Each can talk and be heard by the others. Just ask for the Conference Operator—she'll be glad to take care of the details.

A vital factor in the highly specialized work of providing dependable, low cost telephone service is that telephone supervisors—foremen, wire chiefs, chief operators, managers—start at the bottom. Every part of your service is managed by men and women whose judgment and decisions are based on experience with the job.

Distance, once a barrier to spoken words, has lost its power to limit the human voice. Today words defy intervening miles, and two friends with an ocean or continent between them talk as if face to face. In thus extending the range of man's voice, the telephone performs a modern miracle. It is a part of the miracle that this is done so swiftly, so easily and so cheaply.

to install conduit for up-to-date telephone wiring. It conceals and protects wiring within the walls. It allows you to provide now for future additional telephones, which can be installed when you need them—without cutting through walls and floors, without exposed wiring. It costs little to install during construction.

(Continued on Page 139)

Native Papuans, who can climb trees barefooted with the speed and ease of a monkey, are intrigued by the leg-irons worn by Signal Corps men in climbing trees to string telephone wires on Biak Island off Dutch New Guinea. They now want sets for themselves.

Your telephone company has always tried to see telephone problems through *your* eyes. It approaches its problems with the determination that "the customer *must* be pleased," and develops its service to that end. Particular care is taken, therefore, in selecting telephone workers. Telephone people want to serve you. Your viewpoint is their constant concern.

Advertise your store. Cash in on the money being spent for nationally advertised goods. Have your store listed in the Yellow Pages under a Trade Mark heading. This definitely links your store with trade mark merchandise.

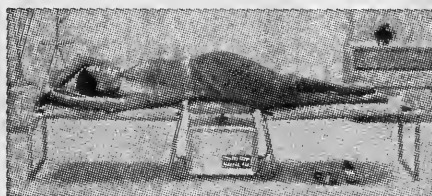

GET A BEAUTIFUL FIGURE . . . AND KEEP IT

WITH THAT WONDERFUL

STAUFFER MAGIC COUCH

THE MODERN WAY TO BE SLENDER

You too can have a lovelier, more slender figure if you'll devote a few minutes each day to the STAUFFER HOME PLAN of passive exercise and caloric reduction. If you're tired of heavy hips, thighs, legs and waistline "rolls" . . . that add accusing years to your appearance . . . the STAUFFER HOME PLAN is the lazy way to have a beautiful figure. Courtesy Treatment. Free Figure Analysis. A trained STAUFFER technician will demonstrate the unit in the privacy of your own home, at your convenience. No disrobing. Absolutely no obligation. Write or Call today. Rent-It-By-The-Month — You Can Buy It for 50c a Day for the Entire Family

A shopping service for your convenience.
When you read an advertisement do you
know where to buy the goods? Look in the
Yellow "Where to Buy It" Pages of this
telephone book, under the trade mark name
of the article. Many nationally advertised
products are listed here, together with a list
of the local stores. Find where to buy it in
your Classified Telephone Directory.

COURTESY

We want your telephone service to be quick and good and cheap. But there is more to it than that. We want it to be courteous, too. No matter what the occasion, there's always time for a cheery "please" and a pleasant word of thanks. That is the Bell System way. It is one of the fine traditions of the telephone business.

(Continued Next Page)

Your telephone company has always tried to see telephone problems through *your* eyes. It approaches its problems with the determination that "the customer *must* be pleased," and develops its service to that end. Particular care is taken, therefore, in selecting telephone workers. Telephone people want to serve you. Your viewpoint is their constant concern.

Distance, once a barrier to spoken words, has lost its power to limit the human voice. Today words defy intervening miles, and two friends with an ocean or continent between them talk as if face to face. In thus extending the range of man's voice, the telephone performs a modern miracle. It is a part of the miracle that this is done so swiftly, so easily and so cheaply.

A SWIFT, SURE WAY

These yellow pages tell you almost instantly who sells that advertised product you want. The yellow section is a great time-saver.

Your telephone company has always tried to see telephone problems through *your* eyes. It approaches its problems with the determination that "the customer *must* be pleased," and develops its service to that end. Particular care is taken, therefore, in selecting telephone workers. Telephone people want to serve you. Your viewpoint is their constant concern.

Two-thirds of all the telephones in use in the United States are residence telephones.

ASK YOUR BUILDER

to install conduit for up-to-date telephone wiring. It conceals and protects wiring within the walls. It allows you to provide now for future additional telephones, which can be installed when you need them—without cutting through walls and floors, without exposed wiring. It costs little to install during construction.

2018 ATLANTIC AV.

SOME OF THE MANY SERVICES

now offered C & P telephone users

TELEPHONE ANSWERING SET: Automatically answers calls when you're out, gives callers a recorded message and lets them leave a half-minute recorded message for you.

ILLUMINATED DIAL TELEPHONE: The dial is illuminated as soon as the handset is picked up. Easy to dial in dark or dimly lit rooms—bedrooms, nurseries, sickrooms, halls.

VOLUME CONTROL TELEPHONE: Just turn the little button at the left of the dial, and a built-in amplifier will increase the volume of the incoming voice. Very useful to people whose hearing is impaired.

ADDITIONAL LISTINGS: All members of the family or firm may be listed in this directory. Directs calls to them easily and promptly.

SPEAKERPHONE: Can be operated without removing the handset on either incoming or outgoing calls. Your hands are free for other tasks. Others in your home or office who are nearby can participate in the conversation.

PUSH BUTTON TELEPHONE: One, four, and six button models. Makes possible combinations of outside and inside lines to meet your home or business needs.

CUT-OFF SWITCH: Pulling up the special knob temporarily cuts off telephones on same line, so no one elsewhere in home or office overhears your conversation.

TELETYPEWRITER SERVICE: Transmits printed messages or orders rapidly between locations utilizing Bell System wire facilities and equipment. Provides private printed records accurately at both sending and receiving locations.
